DETAILED ACTION

Claims 1, 3, 4 and 6-12 are currently pending in the instant application.

Applicants have amended claim 1,3 and 4 and cancelled claim 10 in an amendment filed on January 31, 2008.

I. *Response to Arguments*

Applicant's amendment, filed January 31, 2008, has overcome the following rejections: the rejection of claims 10 under 35 USC 112, first paragraph as failing to comply with the enablement requirement; the rejection of claims 1,3,4 and 6-10 under 35 USC 112, second paragraph as being indefinite; and the rejection of claim 1 as lacking antecedent basis. The above rejections are withdrawn.

However, Applicants amended claim 1 in the amendment filed September 7, 2007 and the Examiner realizes that this new formula is not supported by the original disclosure. This amendment is considered new matter. Applicants are suggested to amend claim 1 so that it reads on the original structure of formula I but Applicants should make sure that the non-elected subject matter is not present in the claim.

II. *Rejection(s)*

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 3, 4 and 6-10 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The amended formula I is considered new matter because the structural formula introduces subject matter that is not supported by the original disclosure. The specification only supports the original formula I found on page 2. Applicants are suggested to amend the claims to read on the structural formula one that is disclosed on page 2 of the specification.
